18<sup>th</sup> January 2008

Dear Valued Customers, Partners and Vendors,

We are pleased to announce that Instcomp, Inc. (Atlanta, GA) and Saka Solutions, Inc. (Atlanta, GA) have entered into a merger agreement, under which the companies will be combined as one, effective immediately. Together, we are uniquely positioned to provide you with a more comprehensive set of IT services and solutions. The increased depth of experience, strength of pooled resources and breadth of our reach are now available under one company. The combined company will operate under the name **Symbioun Technologies Inc** and will be headquartered in Atlanta, GA.

**With this merger, we can offer –**

- A broader portfolio of products and services to meet your business needs. Instcomp brings 14 years of experience in the IT industry serving its US Customers, and Saka brings its technology and offshore delivery strengths, including custom application development and a more global customer base. The new entity provides a well rounded offering of onsite consulting with offshore delivery in select technology areas and business domains.
- A Continuing commitment to innovation and quality, ensuring high value proposition to our customers as before, but now with the added capability.
- A broader coverage for industry verticals and business domains, including Healthcare, Transportation, Publishing, Financial services and Education

Our goal is to continue delivering innovative, high quality services and solutions in our current market. The merger will not affect/modify our current contracts and service agreements. We will continue to work hard to earn your business. With the economy slowing down, companies are looking for ways to reduce cost and minimize risk without sacrificing their growth strategies. We believe Symbioun will now be able to better assist our customers and prospects as they continue their outsourcing and offshore development efforts.

**The combined offerings of Symbioun Technologies are as follows:**

- Products and Solutions in the Mobile Enterprise Platform
- IT Consulting & Software development services on Java/J2EE, Microsoft .Net, Ruby on rails & Mobile applications with a global delivery model
- SAP Project Implementation services on Netweaver Technologies
- Software Testing and Quality Assurance services
- IT Staff Augmentation Services
- Onsite consulting and offshore development

We want to personally thank you for your loyalty and support. We look forward to a much stronger and mutually beneficial relationship. If you have questions, please don't hesitate to contact us directly.

**Sincerely,**

*Victor Kannan*  
*President & CEO*

*Venkat Ganupuru,*  
*Chairman*
